

False discovery proportion (FDP) estimate

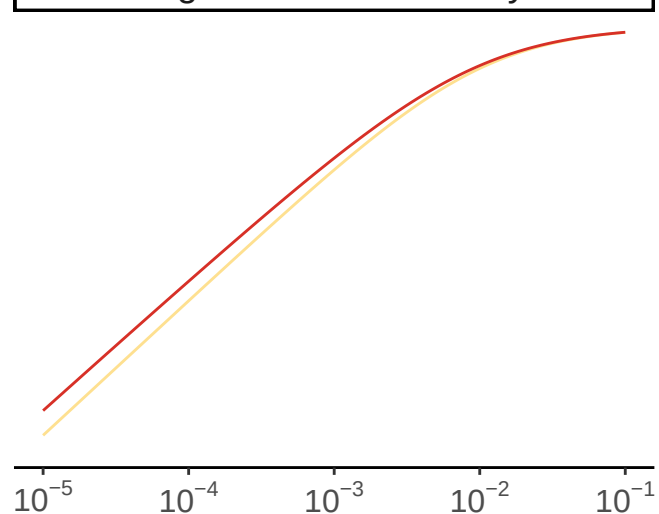

Reads / cell = 12287, Cells = 37888

Lower Effect Variability

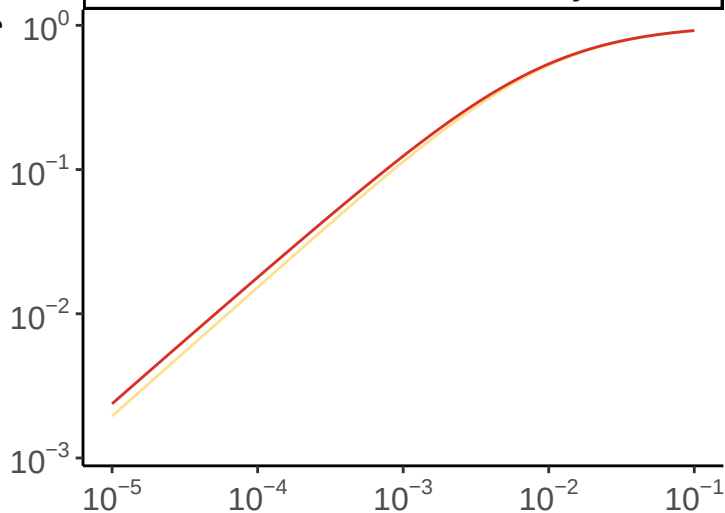

Reads / cell = 12287, Cells = 37888

Higher Effect Variability

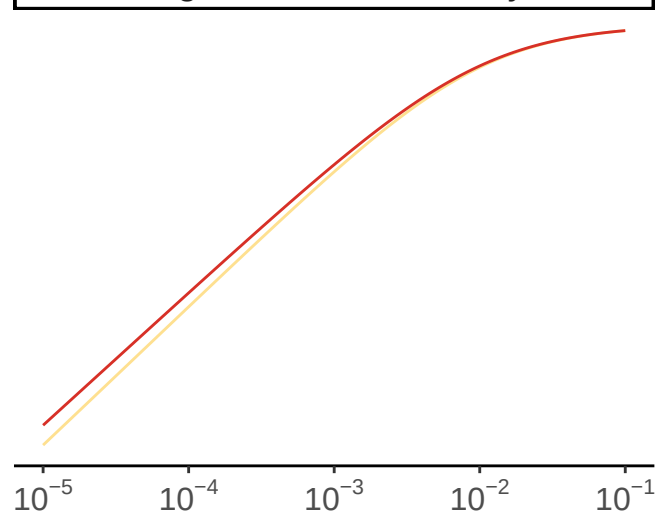

Reads / cell = 22117, Cells = 37888

Lower Effect Variability

Reads / cell = 22117, Cells = 37888

Higher Effect Variability

Significance cutoff

— Median effect size — Minimum effect size
